

# The Plan Universal of Human Life

## LINEAR PROGRESS OF THE DUALITY FRACTAL ENTANGLED

**Linear Progress:** Conception – Life – Death: The « Movement of Time », a one-way, without going back.

**Duality Energy / Matter:** Energy – Life – Matter: with 3 components

- The two extremes of a complementary nature: **Energy – Matter**,
- The field between the two, the back-and-forth between the extremes, the « Movement of Time in Space »: **The Reality of Live**.

**Life is both:**

- ✓ **A linear progress of time in the back-forth of space:** The Linear Duality
  - There is **5 Space / Temps - Different**:
    - × [Energy – Limit between Energy and Life – [Life] – Limit between Life and Matter – Matter].
  - So **two Linear Dualities** of 3 elements which are **inter-connected** by the common element **Life**:
    - × Life as an extreme of a different nature than that of the initial extremes: of **Impalpable** nature,
    - × The two Realities of Life resulting from the two Linear Dualities of Life:
      - × Energy – Limit between Energy and Impalpable Life – Impalpable Life: **An Energetic Reality**,
      - × Matter – Limit between Matter and Impalpable Life – Impalpable Life: **A Physical Reality**.
- ✓ **A back-and-forth of space in the linear progress of time:** The Fractal Duality
  - It is characterized by the sudden and complete apparition of Life, that is to say that there is nothing and the next moment Life progresses and the Universal Plan is wholly inscribed in the First Unitary Element appeared:
    - × Two **impalpable** extremes, of complementary nature: **Conception – Death**,
    - × The field between the two, the back-and-forth between the extremes: **The inter-connected expression of the Two Linear Dualities**.
  - So **an Alive Reality**, which refers to the fact of **Being Alive**, from the sudden moment of the meeting of the gametes, the Conception of an Individual, until his Death:
    - × One extreme is the Immutable Space: **The Yin and the Yang -the animated duality**.
    - × The other extreme is the Immutable Time: **The Breath of Life -Ki, Chi**,
    - × The field between the two: **The Vital Energy -the Yin and the Yang inter-connected to the Breath of Life -Prana**.
  - And **a Space / Time - Conscious**, which takes into account the Universal Plan of Life, started before the sudden moment of the Conception of an Individual and will last after his Death:
    - × It links *Immutable* Space/Time and the *Movement* of Time in Space: **Makes Impalpable Life Conscious**,
    - × It animates physical (*visible*) and energetic (*invisible*) realities: **Entangles Dualities of Life**.
  - The **Alive Reality** and the **Space / Time - Conscious** are **inter-connected** from Conception to Death, that allows Life to **evolve on Earth**:
    - × This reality has an **entangled** link with the Universal Plan, and acts with the two others as **One Alone Reality**,
    - × This reality has an **entangled** link with the Breath of Life which individualizes oneself, spreads oneself to the whole body thanks to **the Perpetual and inexhaustible Vital Energy** which animates it.

**The Vital Energy** entangles **the two realities -energetic, physical-**, connects them to **the Space / Time - Conscious** so that they form a **Energy / Matter – Conscious Reality** maintains **Alive**, via **the Universal Plan**:

- **Linear Progress of the Duality Fractal of Life**,
- **The two matter and energy** realities of Linear Duality, connected as early as the conception to influence each other,
- **entangle with Space / Time - Conscious of Fractal Duality** to make them conscious of being alive,
- **and the Vital Energy of Fractal Duality** animates the realities to make evolve Life.

### The Duality Energy / Matter - Conscious

These are **Two Realities (energetic, physical)** and **A Space / Time (conscious of being alive)** – **Animated** by the **Vital Energy**,
